

SUBMISSION #1

- 1) **Submitted by:** Keith Austin
Date Submitted: June 24, 2017
Electoral District: Pelly-Nisutlin

Submission:

I am writing you as a resident of Faro for thirty-six years. I can remember when we were our own riding. But anyway since your last review when you put Faro with Ross River and Teslin I have felt this was all wrong. I have no problem with being in the same riding as Ross River, but I feel that we don't have a lot in common with Teslin. They seem to be the overriding part of the riding, with them electing the MLA's for the riding and a fair amount of the candidates that run in the elections. I feel that Faro and Ross River should be its own riding, as we have a lot more in common and try to work together on certain things that effect us. Your making the ridings of a certain number of electors might be ok for the Whitehorse area as most of the electors live there. But I think you need to take into consideration the differences that are our communities outside of Whitehorse. There should be some leeway given to put the communities together. You do it for the Old Crow riding, So why not do it elsewhere. Thank you for reading this and I hope that you consider my ideas. Kieth Austin, Faro.
